INFINI™
REVERSE TIME WITH 3D VOLUMIZATION
Now You Can Safely Treat All Skin Types... Year Round

The LUTRONIC INFINI is the ideal solution to create targeted and robust coagulation zones in aging, sagging skin with pigmentation, wrinkles and laxity. Complete control over treatment depth and energy levels enables a multi-layered targeted approach for truly customized treatments, regardless of patient’s skin type or tanned skin. Now you can provide the best solution for results your patients demand year round.

UNIQUE TECHNOLOGY, AMAZING RESULTS

Infini’s proven & impressive design delivers enhanced wrinkle reduction through 3-dimensional energy delivery to volumize tissue. RF energy delivered via insulated gold-coated microneedles creates precise and controllable fractionated coagulation zones within a specific layer of dermis. Adjustable depth control allows for customized and reproducible treatments of delicate areas. Infini effectively lowers the risk of PIH in dark skin types and can be safely used on patients with melasma and other types of pigmented lesions. Lutronic’s patented ComfortFlow™ technology maximizes comfort and patient satisfaction.

MAJOR INDICATIONS

- Skin Tightening
- Periorbital Wrinkles
- Skin Rejuvenation
- Active Inflammatory Acne
- Enlarged Pores
- Acne Scar
- Excessive Sebum Secretion
- Hyperhidrosis/Osmodrosis
- Stretch Mark

WHY INFINI?

- Through 3-dimensional volumizing wrinkle reduction
- Safely treat all skin types, including tanned skin
- Reproducible results
- Clinically proven, thousands of procedures performed worldwide
- Easy to use, fast procedure

- Specifically target defined depths with precise coagulation
- Deeper tissue effect than traditional RF and fractional lasers
- ComfortFlow™ technology treats over 3.5 mm deep
- Quick and easy recovery with little downtime
- 2 in 1 expandable platform: MFR & SFR

"(Infini) RF is a perfect modality for treating skin because you can treat all skin types. In a place like Italy, where we treat the range of skin types regularly, this is a significant benefit." 
Dr. Franco Lauro, Plastic Surgeon, Italy

INNOVATIVE COMFORTFLOW TECHNOLOGY

Unique dual channels of SFR™ noninvasively delivers RF energy to the epidermis and superficial dermis with synergistic effect, resulting in luminous skin and controlled tightening.

IMPROVED OUTCOMES

Infini’s consistent, even thermal distribution ensures more consistent results and improved outcomes.

MAJOR INDICATIONS

- Skin Tightening
- Periorbital Wrinkles
- Stretch Mark
- Active Inflammatory Acne
- Enlarged Pores
- Acne Scar
- Excessive Sebum Secretion
- Hyperhidrosis/Osmodrosis
- Stretch Mark

Characteristic RF delivery with gentle skin contact.

Microneedle tracks and thermal distribution of RF energy in the skin phantom model for the 3.5 mm depth at power level 8 and with different exposure times, as shown (in seconds). Images were captured immediately after withdrawal of the microneedles.

RESULTS YOU CAN COUNT ON
PROVEN CLINICALLY EFFECTIVE

Infiniti is clinically proven, with studies to back the technology. Regardless of depth you can be confident that you are creating consistent coagulation zones which provide outcomes you can count on.

BEHIND THE ADVANCED TECHNOLOGY

The robust Infiniti has a long list of benefits that support you and your patients’ needs.

- Ergonomically designed lightweight handpiece
- Precise targeting with adjustable microneedles over 3.5 mm
- Foot or finger switch operated
- Intuitive touch screen GUI
- Patented ComfortFlow™ technology
- Expandable platform with two revenue streams

SYSTEM SPECIFICATIONS*

System Type | Bipolar RF (Radiofrequency)
---|---
Frequency | 1 MHz
Total RF Treatment Level | Up to Level 20 (Max. Power 50 W)
Operation Mode | Microneedle Fractional RF (MFR)
| Superficial Fractional RF (SFR)
Treatment Duration (Time) | 10 ms - 1,000 ms
Tips | MFR: Microneedle electrodes, 0.5 - 3.5 mm (Adjustable depth)
| SFR: Up to 144 pins
Display | Color Touch LCD (Total Shot Count Displayed)
Dual Switch | Foot & Finger Switch
Weight | 28 kg
Dimension | 362 mm (W) x 409 mm (L) x 1713 mm (H)
